KFC Mabilo Silverton Village

ENERGY CASE STUDY

March 2021

Address: Corner Pretoria Road and James Drive,
Silverton, Pretoria, 0184, South Africa

Carbon Reduction

“Energyrite did a great job resolving this matter and knowing that monthly bill verification checks are being conducted, is very reassuring.”

*Marcus Odendaal,
Operations Director Mabilo Group*

Fast Food's Energy Consumption Controversy

Mabilo KFC Silverton Village installed monitoring only at the store, working proactively with Energyrite to control consumption usage.

As part of the service, the Energyrite team completed a verification check on the stores consumption bill and immediately picked up the store was being billed incorrectly.

Energyrite's Utility Billing Detective Work

With the Groups approval, Energyrite actively followed up with both municipality and the metering company, until it was confirmed that the store was indeed being billed incorrectly.

Righting Wrongs: The Store's Massive Refund

The relentless staff at Energyrite, pursued the matter until the issue was resolved. The store was credited just short of R160 000 dating back from December 2018 to January 2020.

Going forward the store was billed correctly and the monthly cost to company was reduced.
